

## Nexans H07V-U Eca VOBbox / VDbox

VOB-VDBOX H07V-U Eca 1.5 GREY D100 P6km

Nexans Ref.: 10564778 EAN 13: 5413404324392

# FIRE PERFORMANCE CLASS

Eca

#### CONTACT

Product Management service.nnl@nexans.com

H07V-U Eca is an installation wire in a handy VOBbox / VDbox. H07V-U Eca is a solid PVC installation wire intended for protected fixed domestic and industrial installations. Installation may be in pipes or gutters embedded in the wall or floor or surface mounted. H07V-U Eca has a very low friction factor which makes it easy to slide and pull into pipes. In addition, H07V-U Eca is easy to strip, making it quick to process. The box of the VOBbox has the same color as the wire in it. The section is also clearly legible on all sides. This ensures that you have the right wire in place immediately. The cardboard of the VOBbox-VDbox is also extra moisture-resistant, ideal for damp construction sites. Furthermore, the box is designed to keep spiral formation to a minimum. This further facilitates the wire pulling and makes it even easier to work with. H07V-U Eca meets fire class Eca according to EN 50575.

## **STANDARDS**

Product EN 50525-2-31; IEC 60228

#### **APPLICATION**

The colored box packaging **VOBbox** (**VDbox** in The Netherlands) is made of special strong moisture resistant cardboard. Easy to use in humid conditions or in bad weather. The **VOBbox** is available in different colors, with the color of the box corresponding to the color of the wire inside.

**H07V-U** Eca is an installation wire according to fire classification Eca for use indoor in residential and similar installations with a low fire hazard level. They have a low friction coefficient and are suitable for fixed installation in tubes or skirting-board systems.

## **DESIGN**

Conductor: Bare copper, solid, class 1

• Insulation: Special PVC, with enhanced sliding properties

• Section: 1.5 mm² and 2.5 mm²

 Packaging: 100m in the VOBbox (VDbox), a moisture-proof cardboard with color recognition

· Available colours: Green/yellow, brown, blue, black, grey, red, orange and black-white

Conductor flexibility Solid class 1

No

Rated Voltage Uo/U (Um) 450/750 V

Bending factor when laying 4 (xD)

Max.conductor temp.in service

Operating temp

Chemical resistance Medium

Minimum installation temperature
